Dear Aviation Client,

Thank you for your interest in Aviation Services Network. We are a network of highly skilled caterers that service over 400 ICAO airport destinations and are continually growing. We are unique in the sense that we are caterers ourselves and understand the business you engage in on a daily basis.

ASN was created based on the requests of numerous corporate aircraft operators who wanted to streamline their catering departments, keep overhead costs down and elevate the quality, presentation and packaging of the food served on board their aircraft.

ASN helps operators meet these changing needs. This network provides a team of dedicated professionals to our aviation clients. Our affiliates ensure the highest levels of quality, standards, technology, financial management and exceptional customer service all combined with our founders' 30-year reputation of excellence in the aviation catering industry.

ASN has worked diligently to qualify Catering Suppliers across the country to be a part of our network. We are currently providing service coast to coast and are still adding new affiliates to our ASN team. Some of the criteria when selecting Catering Suppliers are:

- ⊗ Vendor reputation in the industry
- ⊗ Safety related issues (licenses, insurances, compliances, health inspections, etc.)
- ⊗ Service related issues (product, packaging, presentation, etc.)
- ⊗ Customer service/employees (training, employee background check, etc.)
- ⊗ Technology (computer-generated invoicing, computer-generated labeling system, cellular communication system, etc.)

If you would like additional information or would like to visit our World Headquarters located in Teterboro, New Jersey, please contact us at 1.888.792.4446 or by email at orders@aviationservicesnetwork.com. We look forward to working with you and your company.

Best Regards,

Two handwritten signatures in black ink are positioned above the names of the signatories. The signature on the left is more fluid and cursive, while the one on the right is more structured and blocky.
